

I am an XM Radio subscriber and I have a right to choose by which means I listen to traffic and weather. I do not like listening to hours on end of commercials on standard radio stations, that is one of the reasons i pay for satellite radio. Why should they dictate what I can and cannot listen to? There is no moral cause for not being able to listen to traffic and weather on XM Radio.

In addition I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. Respectfully I urge you, the FCC, to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that we the people of XM Radio subscribers demand and deserve.
